

# HAND EXTRUDER

## ExOn 3A

**Durable,  
High output,  
Low priced**

Simple, reliable operation combined with service friendly design.

The Extruder ExOn 3A is designed for the most demanding jobsites like Landfill sites.

- Compact and handy with high output of 3kg/h
- designed for the most demanding job sites
- easy maintenance / service friendly
- high welding speed
- for welding PE and PP sheets, pipes, membranes, liners
- optimal performance / best price
