

Ultra[®] Max II 1095 IronMan

Extremely Durable Airless Sprayer for Paints and Light Plasters

BEYOND JOB SITE TOUGH

- Endure extreme conditions: the Roll Cage Frame is built for rugged environments and protects critical components
- Discover the ultimate durability with a pump that's as tough as you are: the MaxLife™ Extreme Duty Pump runs six times longer between repacks
- Conquer the toughest job site with Flat-Proof Tires that roll through the worst debris without ever going flat

Painter - Professional Airless Applications

ULTRA[®] MAX II 1095 IRONMAN

Ultra® Max II 1095 IronMan

Beyond Job Site Tough

This is for **YOU** when you're used to working in extreme conditions. Jobsites with a lot of debris don't scare you off. You endure where others yield.

Graco understands you need equipment that's as tough as you are, while offering the same quality performance.

The **IronMan Series** of our Ultra® Max II range consists of one all-terrain sprayer, where durability and sturdiness offer you the professional advantages you need.

Ultra® Max II 1095 IronMan

That is why we've taken the quality performance of our Ultra® Max II 1095 and put it in a robust IronMan frame.

Have a look at the features that help you stay on the job, even in extreme circumstances.

Because that's what distinguishes you from other professionals. That's where you stand out.

Roll Cage Frame Design

All IronMan sprayers are built for the most brutal and demanding job sites.

- Heavy-duty roll cage frame withstands the most extreme abuse from industrial job sites
- Crush-proof intake screen stands up to harsh impacts

Extreme Duty Pump with MaxLife™ coating

- The industries longest lasting pump
- Market proven on thousands of jobs!
- Utilizing ultra hard treatment technology from the Oil and Gas industry on rod & sleeve
- Super hard surfaces stay smooth longer which extend packing life

Flat-Proof Tyres

- Nails, screws, blades cannot flatten these tyres
- High performance pneumatic tyre

Materials & Applications

The ULTRA® MAX II 1095 IRONMAN is the ideal unit for large painting jobs, inside as well as outside! Your all-terrain buddy for renovations, new construction, commercial and residential buildings, exterior facades, new housing projects, etc.

It handles most common tip sizes with ease!

The ULTRA® MAX II 1095 IRONMAN sprays perfectly acrylics, primers, emulsions, waterborne as well as solvent paints, and even thicker materials like anti-corrosion and fire-retardants.

PRO CONNECT 2

ProConnect²

Keep the sprayer on the job site and not in the shop! The ProConnect² pump installation and removal system allows you to change the pump in seconds, saving valuable time.

JetRoller™

The new JetRoller system minimizes application time when combining rolling and spraying into one operation. The Inline™ valve provides even paint flow and eliminates dipping the roller in paint. Uses commonly available 18 or 25 cm roller covers.

Benefits:

- Reduces overspray
- Eliminates reaching
- Eliminates climbing and continually reaching up and down
- Complete large jobs in half the time of traditional methods

Kit includes a lightweight detachable roller frame, 50 cm extension, CleanShot™ Shut-Off™ valve, spray tip and guard.

! TIP

For improved pump performance when spraying heavier coatings, replace the SST ball in the lower pump with the ceramic ball (delivered free with the unit).

WatchDog™ Pump Protection System

The WatchDog Pump Protection System automatically shuts down the pump when paint runs out or if the hose is damaged.

- ▶ Prevents dry pumping damage

Ultra[®] Max II IronMan Accessories

Get the most out of your equipment, using our professional accessories

Improve your finishing quality

Guns

- 288475 Contractor™ gun, 2-finger, RAC X guard & 517 tip, 60 + 100 mesh filter
