

Mark V IronMan

Extremely Durable Airless Sprayer for Fire Retardants,
Airless Plasters and Paints

BEYOND JOB SITE TOUGH

- Endure extreme conditions: the roll cage frame is built for rugged environments and protects critical components
- Discover the ultimate durability with a pump that's as tough as you are: the MaxLife™ Extreme Duty pump runs six times longer between repacks
- Conquer the toughest job site with flat-proof tires that roll through the worst debris without ever going flat

Mark V IronMan

Beyond Job Site Tough

This is for **YOU** when you're used to working in extreme conditions. Jobsites with a lot of debris don't scare you off. You endure where others yield. Graco understands you need equipment that's as tough as you are, while offering the same quality performance.

The **IronMan Series** of our Mark Max range consists of one all-terrain sprayer, where durability and sturdiness offer you the professional advantages you need.

Mark V IronMan

That is why we've taken the quality performance of our MARK V and put it in a robust IronMan jacket. Have a look at the features that help you stay on the job, even in extreme circumstances.

Because that's what distinguishes you from other professionals. That's where you stand out.

Roll Cage Frame Design

All IronMan sprayers are built for the most brutal and demanding jobsites.

- Heavy-duty roll cage frame withstands the most extreme abuse from industrial job sites
- Crush-proof intake screen stands up to harsh impacts

Extreme Duty Pump with MaxLife™ coating

- The industries longest lasting pump
- Market proven on thousands of jobs!!
- Utilizing ultra hard treatment technology from the Oil and Gas industry on sleeve
- Super hard surfaces stay smooth longer which extend packing life

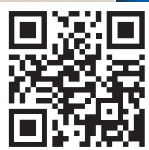

Flat-Proof Tyres

- Nails, screws, blades cannot flatten these tyres
- Pneumatic tyre performance most

Materials & Applications

The MARK V IRONMAN is a real multiple purpose unit for large painting jobs for the inside as well as the outside! Your all-terrain buddy sprays airless plasters and most common paints.

The MARK V IRONMAN sprays latex, emulsions, acrylics, epoxies, blockfillers, fire retardants, intumescent, insulation and roofing. It even has enough performance to deliver the necessary flow for 2 people spraying simultaneously.

Unit equipped with 30 METER hose

www.graco.com

PRO CONNECT²

ProConnect²

Keep the sprayer on the job site and not in the shop! The ProConnect² pump installation and removal system allows you to change out the pump in seconds, saving valuable time.

PLASTER SYSTEM

Extend your Mark V IronMan sprayer to a fully complete plaster system with the 90 liter hopper and bag roller if you spray materials delivered in bags.

SPRAY 700 m² in a day...
 ... with a 2 man crew. Use the container suction set, pumping directly from a 500 or 1000 liter container delivered by your material supplier ... Extremely effective, especially if all built into a van or trailer.

! TIP

For improved pump performance when spraying paint, replace the ceramic ball in the lower pump with the SST ball (delivered free with the unit).

WatchDog™ Pump Protection System

The WatchDog Pump Protection System automatically shuts down the pump when paint runs out or if the hose is damaged.

- Prevents dry pumping damage
