*... for a cleaner world ☀*

## Independent up to 500 bar Mobile Series

The Mobile series is designed for industry and commerce - for users who want high-pressure for continuous operation - independent from electric power supply.

Reliable industrial engines, sturdy reduction gears and excellent high-pressure pumps that what the machines of OERTZEN's mobile series are made of. Founded on decades of experience, this cleaning concept is a big success.

Mobile series work for

- Industrial painting contractors
- Facade cleaning contractors
- Construction companies
- Concrete repair/restoration
- Drain cleaning contractors
- Sewer cleaning contractors
- Water administration
- Sewer administration
- River and channel authorities
- Public administration

## High-Pressure Cleaning - independent up to 500 bar

Three models with 14 and 22 HP power output enable perfect adaption to the required cleaning job: facade cleaning, water-sand-blasting, concrete restoration or drain cleaning.

The machine's components are elastically mounted and securely sheltered in a solid steel frame.

Four large wheels make transport easy even on rough grounds.

Fig. Mobil 240

More advantages for tough tasks are industrial engines - smooth running and reliable, sturdy reduction gears, robust inline

high-pressure plunger pumps as well as complete accessories.

Top models of mobile series are Mobil 400 and Mobil 500, featuring a 5" micro water strainer and an oil radiator. Both are equipped with battery-start and emergency stop.

All mobile machines can be coupled to the OERTZEN HOT BOX, which is a hot water module, that turns a cold water high-pressure cleaner into a hot water version - whatever the present job may require.

Technical Data	Mobil 240	Mobil 400	Mobil 500
Water consumption (adjustable) max.	1.320 l/h	1.320 l/h	1.020 l/h
Unloading pressure	260 bar	405 bar	520 bar
Working pressure (adjustable)	240 bar	385 bar	500 bar
Hydrodyn. capacity (l/min x bar)	5,280	8,470	8,500
Power output (HP/kW)	14 HP/10,3 kW	22 HP/16,2 kW	22 HP/16,2 kW
Full load consumption (regular, leadfree)	3,8 l/h	5,9 l/h	5,9 l/h
Tank volume	7 l	20 l	20 l
Oil shortage stop	serial	serial	serial
Start	recoil rope	battery	battery
Dimensions (L x W x H mm)	720 x 640 x 610	890 x 780 x 690	1.020 x 780 x 690
Weight (net)	96 kg	153 kg	157 kg
Order No.	10.000.240	10.000.566	10.000.521
